WOULDN'T IT BE COOL IF_

YOU STARTED EVERY DAY WITH THE PERFECT PARTNER?

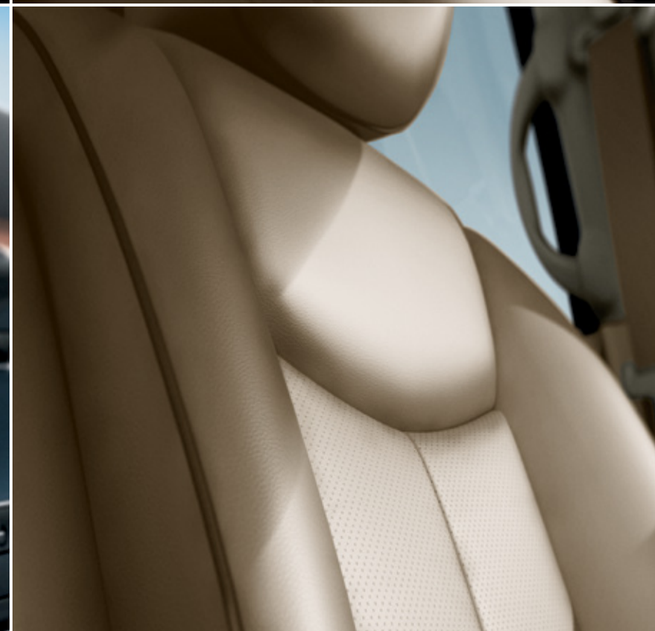
Today will be different. You've got Quest® on your side. When life comes calling, rely on the modern 7-seater with style. Daily routine or family road trip, celebrate it all – with accommodations that are nothing but first-class. Say yes to a roof made of sky,[1] sliding doors that open with one touch,[1] and seats so incredibly easy to configure, you'll look for excuses to pack up and go.

Nissan Quest® LE shown in Gun Metallic with Dual Opening Glass Moonroof Package.

[1]Available feature.

Nissan Quest® LE shown in Beige Leather.

The room you need. The details you love. While you may fall in love with Quest® for all the amazingly flexible space, you'll also come to love the way it feels to simply sit behind the wheel. We designed it for that, with a beautifully curved dash, warm wood-tone trim, controls that are pleasing to the touch, and upscale details like piping on the leather-appointed seats.



Nissan Quest® SL shown in Brilliant Silver.

Permanent rear storage well. The cargo well behind the rear seats is always open for business, thanks to third-row seats that fold forward.

Easy up, easy down. Push the release button and the third-row seats fold right down. The available power-up feature brings them back into place at the push of a button.

A second row you never have to remove. The second row folds flat, which means no more wrestling with seats.

Power-down rear windows. Fresh air for all. In Quest,® your second-row passengers have their own power window.

Where to put the long legs? With Quest®'s sliding second row, you can create more leg room where you need it, in the second or third row.

Quick Comfort® heated front seats.[1] Get to cozy quicker. Key areas of the body are heated in sequence for warming that's ASAP.

Comfort seating design. Shaped and padded especially for improved posture support and comfort. Designed with your next road trip in mind.

FLIP, FOLD AND FIT. ALL AT A MOMENT'S NOTICE.

Third-row seat down. Now you have up to 75 cu. ft. of cargo room.[2] And thanks to the clever no-stow, forward-folding third row, you can still pack some gear in the permanent rear storage well.

Second- and third-row seats down. Just the pair of you cruising the flea market? What will you bring home? With up to 119.8 cu. ft. to fill, there's no telling.[3] And you won't even have to remove the second row.

Nissan Quest® LE shown in Beige Leather.

[1]Standard on Quest® SL and LE. Available on Quest® SV with Leather Package. [2]75 cu. ft. on S, SV and SL models without Bose® audio system. 70.3 cu. ft. on SL and LE models with Bose® audio system. [3]119.8 cu. ft. on S, SV and SL models without Bose® audio system. 115.1 cu. ft. on SL and LE models with Bose® audio system. Cargo and load capacity limited by weight and distribution. Always secure all cargo.

Cargo and load capacity limited by weight and distribution. Always secure all cargo.

CARGO MADE SMARTER.

In Quest,® not only does the second row fold flat, forward, and out of the way, so does the third. So unlike other minivans, instead of stowing seats, the cargo well behind the third row is a permanent place to put whatever you like.

All seats up. Seven on board and you still have room for gear. The permanent storage well has two separate lids. You can keep a flat cargo floor on one side, and leave the other lid open to carry taller things.

Accessory Cargo Organizer shown.

All seats down. Go full cargo mode, while Quest®'s practical and permanent rear storage well is always at the ready.

Any way you look at it, Quest® flips and folds like no other minivan.

[1]119.8 cu. ft. on S, SV and SL models without Bose® audio system. 115.1 cu. ft. on SL and LE models with Bose® audio system. Cargo and load capacity limited by weight and distribution. Always secure all cargo.

Nissan Quest® LE shown in Beige Leather.

LIFE MADE EASIER.

From a convenient way to get everyone inside to a better way to wave goodbye, you'll see innovative design at work for you – everywhere you look.

Power rear liftgate This available feature is the next best thing to your own doorman. Just push a button on the keyless remote, liftgate or dash.

Power second-row windows Open up to let fresh air in, or maybe just wave goodbye.

Low step-in height It's easy for anyone to get in a Quest.®

One-touch power sliding doors Hands full? No problem. Quest®'s available one-touch power sliding doors open easily.

Conversation mirror Don't miss a thing. With this available feature, see who's behaving, or not, in the rows behind.

Nissan Intelligent Key® and Push Button Ignition. A system so smart, you can unlock the doors, open the available power rear liftgate and start the engine, all without taking the key out of your pocket or purse.

Removable 2nd-row console. Your choice. Cup holders for the rear and a place to stash small items. Or remove this handy console to create some walk-around space.

Nissan Quest® LE shown in Pearl White with Beige Leather.

Or go to **bit.ly/questtech**

TECHNOLOGY CHANGES EVERYTHING.

Hungry? Lost? Bored back there? With these available high tech and instant entertainment features, Quest® has you covered. Let the road trip begin.

11" DVD monitor. Our 11" 16:9 viewing area DVD monitor keeps everyone happy for hours and even has inputs for gaming.

Advanced Climate Control System. First in its class.[1] Control your inside climate and clean the air quickly, when you need to. The system can filter the cabin air or help reduce outside intrusion, and even help reduce bothersome allergens.[2]

Nissan Navigation System. Quest®'s advanced navigation system gives you the tools to make every trip a snap. Find a new restaurant and even see what *Zagat Survey*® has to say. Hear turn-by-turn Voice Guidance, then get around jams with available real-time traffic reports from NavTraffic. Know the weather, the quickest way to the freeway and make it there on time.[3, 4]

iPod® connectivity. Your music comes along. On Quest® SV, SL and LE, a standard USB input is ideal for your iPod® so you can easily control your playlist. On S models, you can plug your player into a standard auxiliary audio input.[5, 6]

Bluetooth® Hands-free Phone System. A safer way to stay in touch. Now you can make calls using the buttons on the steering wheel and listen via the speakers. You can also store your address books and use voice-activation to make calls by name.[7]

Bose® audio system. A 13-speaker Bose® audio system is made just for Quest,® designed around the cabin's unique acoustics to enhance its performance. From the driver's seat to the third row, every passenger enjoys the clarity and depth of a live show.

[1] *Ward's* Light Vehicle Market Segmentation. Small Van Class. Advanced Climate Control System introduced with MY11 Quest. [2]The Advanced Climate Control System with Plasmacluster® air purifier helps scrub the air in the vehicle's interior. The system senses exterior odors, suppresses unpleasant interior odors, stops the inflow of external odors and helps keep the cabin smelling fresh, but does not always eliminate odors. [3]Never program while driving. GPS mapping may not be detailed in all areas or reflect current road regulations. [4]Required SiriusXM Satellite Radio, NavTraffic and NavWeather subscriptions sold separately after trial period. Installation costs, one-time activation fee, other fees and taxes will apply. NavTraffic available in select markets. Services available only to those 18 or older in the 48 contiguous states and D.C. Fees and programming subject to change. Subscriptions governed by Customer Agreement available at siriusxm.com. ©2013 Sirius XM Radio Inc. Sirius, XM and all related marks and logos are trademarks of Sirius XM Radio Inc. [5]Driving is serious business and requires your full attention. Do not operate any devices connected to the USB or auxiliary audio input jack while driving. [6]Always give your full attention to driving. Avoid operating your iPod® in such a way that you can be distracted during vehicle operation. See dealer for details. iPod is a registered trademark of Apple, Inc. All rights reserved. iPod not included. [7]Availability of specific features is dependent upon the phone's Bluetooth® support. Please refer to your phone Owner's Manual for details. Bluetooth word mark and logos are owned by Bluetooth SIG, Inc., and any use of such marks by Nissan is under license. ®Bose is a registered trademark of The Bose Corporation. ®Zagat Survey is a registered trademark of Zagat Survey, LLC Ltd. ®Plasmacluster is a registered trademark of Sharp Corporation.

A thousand things to do? Power through with confidence. Starting with the onramp, where Quest®'s 260-horsepower V6 and super-smooth Continuously Variable Transmission (CVT) help make getting up to speed a piece of cake. Quest® is designed for easy maneuverability, too. Speed-sensitive steering gives you the assist you need at different speeds. So steering is easier at low speeds (for parking), and firmer when you're cruising along the highway. And rest assured that Quest® is in it for the long haul. If you change the filters and fluids regularly, you can roll through 105,000 miles and lots of busy days before needing a tune-up.

Nissan Quest® SL shown in Gun Metallic with Dual Opening Glass Moonroof Package.

NISSAN AROUND VIEW® MONITOR[1]

FOUR CAMERAS

ONE 360° VIEW[2]

Forget the tennis ball. In Drive, the display gives you both a front and overhead view, so you can pull all the way into your spot (or garage) – but not too far.

CAMERA 1

CAMERA 2

Complete the picture. Located under your driver's side mirror, this camera helps round out your virtual 360° bird's-eye view whether you're in Drive or Reverse.[2]

CAMERA 3

Don't scratch your wheels. In Drive or Reverse, you can push the camera button to switch out the overhead for a side view. A great help for seeing how close you are to the curb.

CAMERA 4

Look out below. In Reverse, the display helps you see what's directly behind you, while the overhead view helps with shorter objects otherwise hidden below your window.

What if parallel parking was easier? A rearview camera is great when backing up – but when it comes to parking, it's nice to see more than just what's behind you. That's why Quest® offers the class-exclusive Around View® Monitor.[1,3] Four cameras give you a virtual 360° bird's-eye view of your vehicle, with selectable split-screen close-ups of the front, rear, and curbside views, so you can get a better look.[2] Now that's smart.

[1]Parking aid/convenience feature. Cannot completely eliminate blind spots. May not detect every object and does not warn of moving objects. Always check surroundings before moving vehicle. Not a substitute for proper backing procedures. Always turn to check what is behind you before backing up. [2]Virtual composite 360° view. [3]*Ward's* Light Vehicle Market Segmentation. MY14 Quest® versus 2013 Small Van Class.

NISSAN SAFETY SHIELD® PHILOSOPHY

INNOVATION THAT LOOKS OUT FOR YOU.

Wouldn't it be cool if you had the confidence you need for every part of your drive? The Nissan Safety Shield® technologies are a comprehensive approach to safety that guide the engineering and development of every vehicle we make.

MONITOR

Smart technologies are designed to help monitor conditions. Like a warning when another vehicle is in the blind spot area, or a system that helps ensure you're travelling on properly inflated tires.

Standard Tire Pressure Monitoring System with Easy-Fill Tire Alert[1, 2]
Lets you know when a tire is low. And Easy-Fill Tire Alert takes the guesswork out of filling your tires, with a beep of the horn when you've reached the correct pressure.

Available Blind Spot Warning System[3]
Displays an indicator on your appropriate outside mirror when it detects a vehicle in the blind spot area. Then flashes the indicator and sounds a chime if you put on your turn signal.

Available Around View® Monitor[4]

Available RearView Monitor[5]

Available Smart Auto Headlights

RESPOND

Whether you need to hit the brakes hard or maneuver around an unexpected obstacle, these standard technologies help you respond to a potentially harmful situation.

Vehicle Dynamic Control helps you maintain your steered path.[6]

Traction Control System helps reduce wheelspin in low-traction situations.

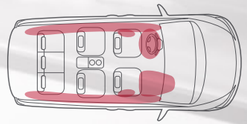
Anti-lock Braking System helps you maintain steering control around obstacles while braking heavily.

Electronic Brake force Distribution sends extra force to the rear brakes when you have additional weight of passengers or cargo in the back.

Brake Assist helps apply maximum braking force if it detects hard braking and senses you are in an emergency situation.

PROTECT

When a collision is unavoidable, Nissan's Zone Body construction helps absorb the impact while the advanced seat belt and air bag systems help protect passengers.



6 STANDARD AIR BAGS[7]

Nissan Advanced Air Bag System with dual-stage supplemental front air bags with seat-belt and occupant-classification sensors[7]

Front seat-mounted side-impact supplemental air bags[7]

Roof-mounted curtain side-impact supplemental air bags[7]

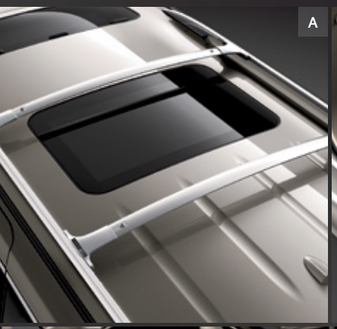
LATCH System (Lower Anchors and Tethers for CHildren)

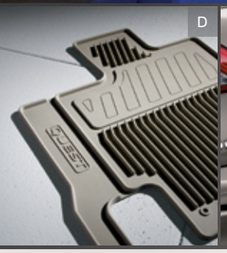
snug-kids. Nissan safety engineers have dedicated thousands of hours to evaluating hundreds of child restraints in Nissans. The result: An industry first, The Snug Kids® Child Safety Seat Fit Guide. This guide lists child seats that fit the rear seats of Nissan vehicles, as well as offers invaluable tips on correct installation. Look for the latest Fit Guide at NissanUSA.com/SnugKids.

Click the button to see a short video on how Snug Kids® helps you find the right CRS for your Nissan. Or go to **bit.ly/NissanSnugKids**

PLAY VIDEO

[1]Tire Pressure Monitoring System is not a substitute for regular tire pressure checks. [2]Vehicle must be on for the Easy-Fill Tire Alert to operate. [3]The Blind Spot Warning System is not a substitute for proper lane change procedures. The system will not prevent contact with other vehicles or accidents. It may not detect every vehicle or object around you. [4]Parking aid/convenience feature. Cannot completely eliminate blind spots. May not detect every object and does not warn of moving objects. Always check surroundings before moving vehicle. Not a substitute for proper backing procedures. Always turn to check what is behind you before backing up. [5]Parking aid/convenience feature. Cannot completely eliminate blind spots or warn of moving objects. May not detect every object. Always check surroundings before moving vehicle. Not a substitute for proper backing procedures. Always turn to check what is behind you before backing up. [6]VDC, which should remain on when driving except when freeing the vehicle from mud or snow, cannot prevent accidents due to abrupt steering, carelessness, or dangerous driving techniques. Always drive safely. [7]Air bags are only a supplemental restraint system; always wear your seat belt. Even with the occupant-classification sensor, rear-facing child restraints should not be placed in the front-passenger's seat. Also, all children 12 and under should ride in the rear seat properly secured in child restraints, booster seats, or seat belts according to their size. Air bags will only inflate in certain accidents; see your Owner's Manual for more details.





GENUINE NISSAN ACCESSORIES.

Every Genuine Nissan Accessory is: custom-fit, custom-designed and durability-tested; backed by Nissan's 3-year/36,000-mile (whichever occurs first) limited warranty; and can be financed when installed by dealer at time of purchase.[1]

A. **Roof Rail Crossbars[2]**
Made of steel, so you know they're good.

B. **Cargo Area Protector[2]**
Because being a cargo area isn't easy.

C. **Interior Accent Lighting**
Bring some color to the carpool.

D. **All-season Floor Mats**
The answer to muddy shoes and rogue sippy cups.

E. **Rear Bumper Protector**
Scratches? What scratches?

F. **Child Seat Protector[3]**
Look out for your children, and your seats.

G. **Hatch Tent**
It's Quest*! It's a campsite. It's both!

H. **Illuminated Kick Plates (2-piece set)**
Fewer scuffs and a grand entry, every time.

Additional Accessories:

- Family Travel Clean-up Kit
- Splash Guards
- Hood Protector
- Cargo Organizer
- Carpeted Floor Mats
- Towing Accessories[4]
- Nissan VTRS (Vehicle Tracking and Recovery System)[5]
- And More

[1]Covered by Nissan's Limited Warranty on Genuine Nissan Accessories for the longer of 12 months/12,000 (whichever occurs first) miles or the remaining period under the 3-year/36,000-mile (whichever occurs first) Nissan New Vehicle Limited Warranty. Terms and conditions apply. See Warranty Information Booklet for details. [2]Cargo and load capacity limited by weight and distribution. Always secure all cargo. Heavy loading of the vehicle with cargo, especially on the roof, will affect handling and stability of the vehicle. [3]Always follow the child restraint manufacturer's instructions and review the child restraint manual before using this product. [4]See Nissan Towing Guide and Owner's Manual for proper use. [5]VTRS requires owner registration, a constant 12-volt source, and cellular and GPS satellite availability to function properly.

BUYING/OWNING

Nissan Motor Acceptance Corporation. Whether you're buying or leasing, you'll find attractive rates and flexible terms to make your purchase more accessible.

College Grad Program. Ask about our special new vehicle pricing available to individuals up to two years after graduation.

Active and Reserve US Military Program. Ask about our fixed discount on new vehicle pricing available to those serving our country.

New Vehicle Limited Warranties. Protection for your new Nissan includes 3-year/36,000-mile (whichever occurs first) basic coverage and 5-year/60,000-mile (whichever occurs first) powertrain coverage. Terms, conditions and exclusions apply. See Warranty Information Booklet for complete details.

Security+Plus.® For additional peace of mind, a variety of extended service plans lets you tailor the coverage to your driving habits.

Maintenance+Plus® This extended plan ensures your Nissan will receive up to 17 different services and over 33 different inspection items at each visit, using the most up-to-date diagnostic equipment available.

Genuine Nissan Parts. When it comes time for service, any necessary replacement parts will be made using Genuine Nissan new or remanufactured parts, or Nissan-approved parts. And they're the only parts to carry Nissan's factory-backed limited warranty.

Nissan Mobility Assist. This program offers reimbursements toward the purchase and installation of certain mobility assistance products for program-eligible Nissans. Go to NissanUSA.com/mobility for more info.

Nissan's environmental action plan focuses on several key areas. Increasing production of Zero Emission vehicles, including the 100% electric LEAF.® Improving fuel efficiency through our PUREDRIVE™ measures. And reducing the environmental impact of manufacturing, as seen at our new, energy-efficient, low-emissions paint plant in Tennessee. For more information, log on to NissanUSA.com/green
